

INTRODUCING ...

# THE FILTERBOX GRABBER

The patented Filterbox Grabber from Sensible Products is a new tool developed for lifting filterboxes\* from ground to roof level. This tool saves you the time and energy wasted climbing up and down ladders, making your service contracts much more profitable.

The locking mechanism is activated by a quick drop onto the filterbox- the arms then clamp down on the sides allowing for a quick, easy lift.

box of filters, as shown at the right. With a quick drop, the locking mechanism is activated, and the Filterbox Grabber clamps onto the sides allowing you to lift your filterbox.

## THE FILTERBOX GRABBER

- ◆ Saves time
- ◆ Lifts virtually any filterbox
- ◆ Is safer than climbing up and down ladders
- ◆ Lifts loads up to 20 pounds
- ◆ Part# FBG-1

\* Do not attempt to lift objects over 20 lbs.

\*\* Rope sold separately.
