

B615-030-047

Characterized, Brass Chrome Plated Ball and Stem 1/2", 6-way, Female NPT

| DN | | 15 | |
|-----------------|----------------------|----------------------------------|--|
| Size (inches) | | 1/2" | |
| Cv | | 3 | |
| Flow (GPM) | | N/A | |
| Cv (Sequence 2) | | 4.7 | |
| Media | | Water 60% Glycol | |
| | Temperature Range | 0°F to 212°F [-18°C to 100°C] | |
| Pressure | Body | 600 psi | |
| | Close Off | 200 PSI | |
| | Differential | 50 PSI | |
| | Max Inlet | N/A | |
| Leakage | A-AB Port | 0% | |
| | B Port | 0% | |
| Materials | Body | Brass, nickel plated | |
| | Ball | Brass, Chrome plated | |
| | Stem | Brass, Chrome plated | |
| | Seats | PTFE | |

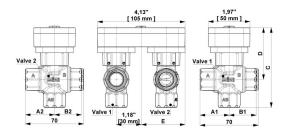

Common Applications

The Modular 6 Way valve (Mod 6) is ideal for chilled beam, fan coil, radiant heating and unit ventilator applications. Using a single actuator it reduces wiring and also eliminates the need of a change over valve, while enabling the use of a single coil for heating and cooling. The Modular 6 Way is available with a non fail-safe proportional (modulating) actuator.

Operations

Modular 6 way valve is an electronically actuated characterized control ball valve. Control signal is modulating (proportional) non fail-safe and is used to determine the final positioning of both ball rotataion angles which determine sequence and amount of flow through the valve.

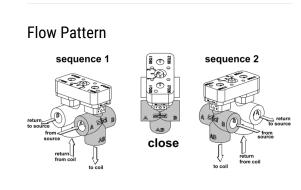

Dimensions

| Α | В | С | D | E |
|---------|---------|---------|---------|---------|
| 35 mm | 32.5 mm | 95.5 mm | 62 in | 52.5 in |
| 1.38 in | 1.28 in | 3.76 in | 2.44 in | 2.07 in |
