

Gallo Gun

The Charles Gallo Drain Gun is a lightweight, portable tool designed to blow out condensate drain lines instantly. Simply insert a Swoosh CO₂ cartridge into the Charles Gallo Drain Gun and with a press of the trigger — Swoosh — 800 psi of oil free food grade air clears the line. The Charles Gallo Drain Gun packs cleaning power into a small, lightweight package, preventing the need for carrying heavy air or nitrogen tanks.

The Gallo Gun uses carbon dioxide (CO₂), a common component of air, and is totally safe for use in the environment. The Charles Gallo Drain Gun is a perfect alternative to the environmentally unfriendly practice of using refrigerant to clean the drain line. Its flexible hose assembly enables you to maneuver through cabinets, coils, and hard to reach drains. An adapter kit is also available to allow for use on oil burner lines and tighter areas with a 90° fitting.
