# PLANOGRAMS

## 8' set

These planograms are the easy way to create a professional, comprehensive product set in your showroom. Each contains the most popular DiversiTech chemical products and makes it easy for your customers to find the right product fast. Use one of these planograms to drive chemical sales in your branch and turn your display into a profit center.

## 4' set

The new DiversiTech chemical line also features white outer cases with full color product labels that make an attractive in-store display even on their own.

COIL CLEANERS

**Pro-Red Plus™**

Pro-Red Plus™ Non-Acid Coil Cleaner and Brightener is an easy to use, concentrated, fast-acting product that foams and lifts away stubborn deposits from air-cooled condensers and coils. It removes tarnish and corrosion deposits, and leaves a bright clean shine on aluminum and copper coils.

Pro-Red Plus™ Non-Acid Coil Cleaner and Brightener cleans by chemical action. Its brightening properties are as effective as conventional acid coil cleaners, but Pro-Red Plus™ does not contain extremely toxic hydrofluoric acid. The vigorous foaming action eliminates the need for prolonged soaking, steam cleaning or scrubbing coils. Non-acid formula does not emit corrosive fumes, and will not rust ferrous metals.

**Triple-D™ Universal Coil Cleaner**

Triple-D™ is a Universal Coil Cleaner suitable for use on condenser *and* evaporator coils. Metal safe and does not attack aluminum or copper coil components, extending equipment life and diminishing potential for refrigerant leaks. Safe for rooftop units.

Triple-D™ is available in a package to fit any contractors needs – super concentrated liquid, pre-mixed trigger sprayer, convenient aerosol, and industry leading Granular Coil Cleaner. In liquid form, Triple-D™ is super concentrated. A single gallon of concentrate makes 75% more mixed coil cleaner than conventional concentrations. The liquid concentrate is also NSF Registered, assuring that it is safe as a cleaner in restaurants, hospitals, government institutions, and any food preparation area (rinse thoroughly after use). Triple-D™ is a safer, more versatile product than conventional acid or non-acid coil cleaners. One product does it all – truly a Universal Coil Cleaner.

DiversiTech produces the most complete line of industrial coolant and heat transfer products in the HVAC/R Industry. Our product line includes ProTek PG propylene glycol products formulated with food-grade corrosion inhibitors and ProTek EG ethylene glycol products for industrial applications. Both product groups are designed to provide freeze and burst protection and are formulated with inhibitors and antifoam agents to provide long-term stability against system corrosion and fouling.

### ProTek™ Closed Loop Heat Transfer Fluid

ProTek™ for closed loop water recirculation systems is a blue liquid. Available in three concentrations: original ProTek-100™, ProTek-50™, and ProTek-Plus™. Each concentration may be further diluted to alter freeze and burst temperatures. Refer to the technical data sheet for specific information.
