

# WEISS INSTRUMENTS

Thermometers

Temperature Controllers

Pressure Gauges

HVAC/R Instruments

Throughout the 20th century, the Weiss name has been synonymous with quality and reliability in instrumentation. Some of the products we have manufactured for more than 125 years are proudly illustrated in this catalog, dedicated to your requirements in the air-conditioning, refrigeration and heating industry. Recent products such as our line of Electronic Temperature Controllers, fast becoming the OEM choice, are also available to you.

Whether you require instruments for temperature or pressure monitoring, the Weiss line offers a full range of outstanding products from which to choose. Our commitment to quality extends well beyond the products we provide. Each day we strive to offer our customers responsive service and reliable deliveries, qualities so necessary in today's business climate. Weiss understands the trends of today's market and we look forward to proving our ability to react to the daily challenge.

# LED REMOTE READING DIGITAL THERMOMETERS

Where customers prefer LED, Weiss offers our 2" retrofit unit, the 20DT. Now with 120Vac direct power (no transformer needed) and 1/2" high intensity red readout. All the digital thermometers are NSF listed. Both units feature a 9V DC battery back-up circuit that will display the temperature during a power outage (up to 36 hours).

# CONTROLLER AND ALARM KIT FOR WALK-INS

If the Compressor is the heart of any Refrigeration System then surely temperature control instrumentation is the brains. And without reliable instruments food quality will suffer and losses will occur. Weiss Instruments/Dixell Controls with extensive experience in the foodservice/refrigeration industry offers the most dependable refrigeration controls to insure the proper performance of your equipment and the preservation of your products.

- Control with electronic ease and precision
- Replace old mechanical thermostats
- Replace old defrost time clocks
- Preset alarm points
- Door open alarm

# WALK-IN ALARM & LIGHT MANAGER

Introducing a total walk-in solution for Food Safety and Energy Savings...

The greatest detriments in the daily operation of walk-in coolers are doors left open and lights left on resulting not only in loss of energy but also in the compromising of food safety. Weiss Instruments/Dixell Controls is proud to offer the XWA11V compact and easy to use monitoring system.

## FEATURES:

- Hi / Low temperature alarms w/delays
- Lighting management - Auto off
- Door open alarm
- Panic alarm
- Battery back-up option
- Saves energy

IDN 61601

### XWA11V Kit includes:

- 5Ft. probe (can be extended to 300ft.)
- SST waterproof switch plate & Wall Mount Box
- Magnetic Door Switch
- 8A alarm relay
- 16A light relay
- Adjustable settings - optional programming HOT KEY
- 120VAC direct power - UL Listed

# DIGITAL THERMOMETER WITH SWITCH PLATE

Now you can combine your Light Switch and Digital Thermometer in one easy to install package. The waterproof "elbow" engaged illuminated light switch allows operators to turn on the walk-in light easily, even when their hands are full. The industrial duty light switch is rated at 15A, UL Listed and includes optional gasket for outdoor use.

- LED Temp Display with °F/°C switch
- 1 second, 1\*minute or 3 minute display update
- Light switch (15A) and SST J-Box Mount Cover
- 120V Direct Power
- Optional Battery back-up
- Save on installation costs

\*Standard 1 min. update

# REFRIGERATION / FREEZER CONTROLLERS

The Prime Series of Dixell controls by Weiss Instruments are the OEM choice for Electronic Controls for Refrigeration. Low cost and simple operation offers fully adjustable parameters for tight control and reliable operation. When looking for an OEM replacement, it is important to determine the exact part number on the label of the original unit. The following table shows all of the combinations. For probe replacements see Page 7. Note that all probes are thermistor, either PTC (which use white wire) or the newer NTC (which uses black wire). More advanced controls including those that can communicate to our Web Based Monitoring System, XWEB can also be found on our web site.

Please refer to our web page for detail documentation and instruction manuals.

The Serviceman today needs an instrument that is reliable, durable and accurate, has usable functions and probes for measuring refrigeration and air-conditioning systems, and is reasonably priced. The Weiss DT51A and DT52A offer such a product for temperature measurement.

The DT51A-1 is a type K thermocouple based single probe thermometer with a range of -50/1999°F, resolution switch (0.1°F or 1°F), Data Hold feature, Max Memory, °F or °C switch and includes a general use probe.

The DT52A-4 is also type K thermocouple with two probe inputs that offer the differential feature required in refrigeration and air-conditioning service. Includes two velcro probes with the sensor built in, plus a bead probe and general probe with handle in an ABS carrying case.

# DIGITAL THERMO - ANEMOMETER

CFM-01

The CFM-01 is a valuable tool in the measurement of Air Flow and Air Temperature and will automatically calculate CFM's & CMM (cubic ft. per minute and cubic meters per minute). Instant/Average and 2/3V max Flow Measurements are simply and easily obtained using the 12 key pads to enter the duct or hood area in feet or meters and displayed on the LCD Dual Readout. Air velocity can be measured in m/s, ft/min, knots, km/hr. and mph. Temperature readings are obtained with a fast response type K thermocouple.

- CFM made easy •Large LCD Dual Display •°F/°C
- Auto Off •9V Battery and Carrying Case included

Cat No.	Description	IDN
CFM-01	Thermo-Anemometer	61405

## SPECIFICATIONS

**Display:** 1/2" & 3/8" digits.

**Bearing:** Sapphire jewel bearing.

**Operating Temperature:** Meter 32°F–122°F (0°C–50°C)  
Vane 32°F–140°F (0°C–60°C)

**Operating Humidity:** Less than 80% RH

56SD-160

72SD-F

25SD-160

20SD-FS

20SD-HL

Weiss Instruments is the leader in Solar Powered technology\* as we now offer seven different versions of our Digital thermometers. Available in low light version 56SD, (15 Lux) 25SD, 72SD, (30 Lux) and Series 20SD (75 Lux). These "self powered" thermometers operate without any batteries and offer an attractive and modern update to existing refrigeration equipment. Each thermometer has adjustable calibration, a ten second update time and wide ambient temperature specifications for both indoor and outdoor installations.

# NSF REMOTE READING DIAL THERMOMETERS

The Weiss Line of Remote Reading Dial Thermometers offers a wide variety of dial sizes and case configurations to match any installation. All items are furnished in attractive stainless steel cases and all models are NSF listed. Additional features include smart color zoned dual scales and tin plated thermal systems.

# UNION CONNECTED DIAL THERMOMETERS

45BL-100

Offered in 3 1/2" and 4 1/2" dial sizes the Series BL is furnished with braided copper capillary and a 1/2" NPT brass union connection. Sensor bulb insertion is 2 5/8" below the mounting thread. Case configuration is stainless steel back flange type for wall or surface mounting, capillary outlet at case bottom.\* The Series BL construction is well suited to applications such as hot and chilled pipeline systems, tanks, coolers and air ducts.

<b>SENSOR</b>	Glass passivated thermistor - NTC	
<b>STEM ASSEMBLIES</b>	<b>INDUSTRIAL GLASS</b>	<b>BIMETALLIC</b>
	Full conformance with Fed Spec GG-T-321D.	Full conformance with ASME B40.3 - 1990.
	Fully interchangeable with Industrial Glass Thermometers.	Fully interchangeable with Bimetallic Dial Thermometers.

The Weiss patented,\* Digital Vari-angle® Thermometer maintains the strict requirements for thermometers in hydronic applications in that they're self-powered and within 1% accuracy. This reliable series of digital thermometers offers the added feature of stem assemblies for direct replacement of mercury-in-glass types where environmental concerns exist. Whether on new installations or replacements, our Vari-angle Digital Thermometers include the same level of quality that the industry associates with the Vari-angle trademark and all Weiss Products.

\*Patent No. 5,196,781      ©Vari-angle is a registered trademark of Weiss Instruments, Inc.

# INDUSTRIAL GLASS THERMOMETERS

Weiss 9" Scale Vari-angle Thermometers are the industry standard for HVAC applications. Union connection stem is offered for pipe-line applications, for chilled and hot water installations with a 3 1/2" stem. Perforated 6" stem with a mounting flange is for air duct use. Blue Liquid is standard.

## TEMP / PRESSURE TEST PLUGS

Weiss Temperature/Pressure Plugs allows for quick, efficient and accurate testing of hydronic pipe lines throughout HVAC systems. Offered in both nardel (blue cap) for hot and chilled water and neoprene (red cap) for natural gas. Weiss plugs are consistently rated at 1000 psi. The self-sealing core insures long life and continuous service.

# AMMONIA GAUGES

• Heavy Duty Internals on 4 1/2" Gauges

• Stainless Steel Case

These gauges are designed for the pressure measurement of any system or equipment charged with ammonia. Most dials are furnished with corresponding temperature scales. Black inner arc indicates pressure. Red outer arc indicates corresponding temperature. All gauges are equipped with restrictors to protect the gauges against pulsating pressure.

# DIAPHRAGM GAUGES

The Weiss Series DG Gauges are used in the measurement of pressures below 10 psi. This line of diaphragm gauges offers an instrument highly sensitive yet durably constructed. Utilizing a thin walled copper-alloy, the diaphragm senses slight pressure or vacuum and expands or contracts. The action of the element is quickly and accurately indicated within 1.5% of full scale range. Some of the uses are filter monitoring, leak testers and LP gas.

**CASE** - Black drawn steel, with twist lock polycarbonate window. **DIAPHRAGM** - Copper alloy. **SOCKET** - Brass, 1/4" NPT lower or center back connection. **MOVEMENT** - Brass. **DIAL** - White coated metal lithographed with black graduations lines and numerals. **POINTER** - Balanced design, aluminum in black finish.

# TRADE LINE GAUGES

Weiss TL Gauges are intended for general service conditions, for pressure or vacuum on air, oil, water, gas or other mediums that do not attack brass. TL Gauges are furnished in drawn steel cases, finished in black. The 1 1/2" dials are supplied with 1/8" NPT and 2" dial versions are available with 1/4" or 1/8" NPT connections. All other dial sizes are 1/4" NPT. All gauges conform with ANSIB40.1 accuracy Grade B-2% mid scale.

**Sensor Type:** Humidity: Precision Gold capacitance sensor  
Temperature: Semiconductor sensor

**Response Time:** Humidity: 45% - 95% < 3 minutes  
95% - 45% < 5 minutes  
Temperature: 1°C / 2 seconds

**Sampling Rate:** 2.5 times per second

**Auxiliary Outputs:** Humidity - 10mVdc / 1% RH  
Temperature - 10mVdc / 1°C

### Environmental

**Operating Temperature and Humidity:** 32 to 122°F\*  
0 to 50°C >85%RH

\*(-20 to 140°F will operate for limited time period)

**Storage Temperature and Humidity:** -10 to 60°C  
14 to 140°F >70%RH

### General

**Weight:** 200gm (7 oz.)

**Dimensions:** 10.6"L x 2.7"W x 1.0"H (270mm x 68mm x 25mm)

**Battery:** Standard 9V (NEDA 1604, 6F22 or 006P)

**Battery Life:** Approx. 400 hours

**Low Battery Indication:** "BT" indicates on the display.

### Series RHT-1

Cat. No.	Range	IDN
RHT	10% - 95% RH 4/0/140°F	61300

Accurate Humidity measurement at reasonable cost with usable functions is what best describes the Weiss Series RHT-1. This rugged hand held instrument features a wide humidity measurement range from 10% to 95% and a temperature range from -4°F to 140°F, (-20 to 60°C). Accuracy of 2% RH and 1°F, plus an °F/C switch, Hold feature and Output Jack make the RHT-1 ideal for HVAC and Refrigeration applications. The precision capacitance humidity sensor offers fast response and the output jack offers the ability to record data or remotely monitor both temperature and humidity. These features are normally found on instruments costing much more than the reasonably priced RHT-1, complete with 400 hour 9V battery and case.

# COMPACT THERMO/HYGROMETER

- Temperature, Humidity Indicator

The Weiss Display can be wall bracket mounted or where space permits with floor stands. The versatile grid pattern allows for easy placement of packages for a neat and uniform display.

The packaging allows a full view of the package contents and is suitable for counter standing display.

## General Service Gauges

The Weiss Series TL Gauges are intended for general service conditions, for pressure or vacuum on air, oil, water, gas or other mediums that do not attack brass.

Steam Service Gauges should be protected from excessive temperature by the installation of a coil type syphon. (Cat.No. SY14-S iron or SY14-B brass)

**SPECIFICATIONS: TUBE & SOCKET** - Bronze, soft soldered to socket and tip. Brass socket.

**CASE & WINDOW** - Drawn steel case, finished in black with push-in polycarbonate window.

**DIAL** - White coated metal lithographed with black and red graduations lines and numerals, dual scale - psi & kPa.

**MOVEMENT** - All brass construction, precision gear and pinion, mounted on socket independent of case.

**POINTER** - Balanced design, aluminum in black finish.

**ACCURACY** 2% of the middle third of the entire range. ANSI-ASME B40.1 Grade B.

## HVAC Gauges - Series 4CTA

The Weiss HVAC Gauges meets the specifications of contractors in heating, plumbing, air conditioning and ventilating applications.

This Series of gauges are intended for general service conditions, for pressure or vacuum on air, oil, water, gas or other mediums that do not attack brass.

Steam Service Gauges should be protected from excessive temperature by the installation of a coil type syphon. (Cat. No. SY14-S iron or SY14-B brass)

**SPECIFICATIONS: CASE & WINDOW** -Stainless Steel back flange with push-in Lexan window.  
**TUBE & SOCKET** -Phosphor bronze. Brass socket and 1/4" male NPT lower connection. Soft soldered connection.  
**DIAL** -White coated metal lithographed with black graduations lines and numerals, dual scale - psi & kPa.  
**MOVEMENT** -All brass construction, precision gear and pinion.  
**POINTER** - Slotted adjustable.  
**ACCURACY** -1% ANSI-ASME B40.1 Grade 1A.

## Series 4CTS

**SPECIFICATIONS: CASE & WINDOW** -Drawn stainless steel, with push-in Lexan window.  
**TUBE & SOCKET** -Phosphor bronze. Brass socket and 1/4" male NPT lower connection. Soft soldered connection.  
**DIAL** -White coated metal lithographed with black graduations lines and numerals, dual scale - psi & kPa.  
**MOVEMENT** All brass construction, precision gear and pinion.  
**POINTER** - Slotted adjustable.  
**ACCURACY** -1% ANSI-ASME B40.1 Grade 1A.

## Standard Graduations

### PRESSURE (psi) - Series TL

Range	Figure interval	Minor graduation
0-15	1	0.5

### VACUUM

Range	Figure interval	Minor graduation
0-30"Hg	5"Hg	0.5"Hg

<sup>1</sup> All dial ranges available in dual scale - psi & kPa, psi & Kg/cm<sup>2</sup>. Ranges 15psi thru 200psi available dual scale - psi & Ft H<sub>2</sub>O.

<sup>2</sup> Ranges are not offered on 4CTA Gauges.

## Diaphragm Gauges

## Series DG25

The Weiss Series DG Gauges are used where accuracy is required in the measurement of pressures below 10 psi. This line of diaphragm gauges offers an instrument highly sensitive yet durably constructed. Utilizing a thin walled copper alloy, the diaphragm senses slight pressure or vacuum and expands or contracts. The action of the element is quickly and accurately indicated within 1.5% of full scale range.

The Weiss Diaphragm Gauge is an excellent choice for a wide variety of applications where the standard bourdon tube gauge cannot perform reliably. Some of the uses are filter monitoring, leak testers and LP gas.

**SPECIFICATIONS: CASE** - Black drawn steel, with twist lock polycarbonate window.

**DIAPHRAGM** - Copper alloy.

**SOCKET** - Brass, 1/4" NPT lower or center back connection.

**MOVEMENT** - Brass.

**DIAL** - White coated metal lithographed with black graduations lines and numerals.

**POINTER** - Balanced design, aluminum in black finish. **ACCURACY** - 1.5% of full scale range.
