

One for all.
The new testo Smart App.

Be sure. **testo**

All applications of the new digital manifolds on your smartphone – and much more: **stored menus** guide you step by step through measurements, you can **evaluate results faster**, and documentation, including **sending measurement data by e-mail**, is child's play.

- **All in one:** One App for all Bluetooth®-enabled Testo measuring instruments
- **Quick and easy:** Measurement menus for numerous applications provide optimum support in configuring and carrying out measurements
- **Graphically visualized presentation of measurement values**
- **Create digital measurement reports** including photos as PDF/CSV files on site and send via e-mail

Extra-large graphic displays, the testo Smart App and intuitive user guidance make measurements **faster and easier than ever before.**

Compact, handy and rugged:
The rugged housing with its sunken display handles its job reliably even under extreme conditions.

Wireless measurement, uncomplicated documentation – with Bluetooth® 5.0, testo Smart App and free testo DataControl PC software.

Manifold testo 557s with 4-way valve block

testo 557s Smart Vacuum Kit consisting of testo 557s manifold including calibration protocol, testo 552i wireless vacuum probe, (2x) testo 115i wireless clamp temperature probes, batteries, and case
Order no. 0564 5571 01

testo 557s Smart Vacuum Kit with four hoses consisting of testo 557s manifold including calibration protocol, testo 552i wireless vacuum probe, (2x) testo 115i wireless clamp temperature probes, batteries, case, and four hose set
Order no. 0564 5572 01

Manifold testo 550s with 2-way valve block

testo 550s Basic Kit testo 550s smart digital manifold with wired temperature probes, incl. calibration certificate, batteries, and case
Order no. 0564 5501 01

testo 550s Smart Kit testo 550s smart digital manifold including calibration protocol, (2x) wireless temperature probes, batteries, case
Order no. 0564 5502 01

testo 550s Smart Kit testo 550s smart digital manifold including calibration protocol, testo 552i wireless vacuum probe, (2x) testo 115i wireless clamp temperature probes, batteries, case
Order no. 0564 5504 01

testo 550s Smart Kit with three hoses testo 550s smart digital manifold including calibration protocol, (2x) wireless temperature probes, instrument case and three hose set
Order no. 0564 5505 01

App-controlled manifold testo 550i (2-way)

testo 550i App-controlled manifold incl. calibration protocol
Order no. 0564 2550 01

testo 550i Smart Kit consisting of testo 550i manifold including calibration protocol, (2x) testo 115i wireless temperature probes, instrument case
Order no. 0564 3550 01

testo 550i Smart Kit consisting of testo 550i manifold including calibration protocol, (2x) testo 115i wireless temperature probes, testo 552i wireless vacuum probe, instrument case
Order no. 0564 4550 01

testo 550i Smart Kit consisting of testo 550i manifold including calibration protocol, (2x) testo 115i wireless temperature probes, (2x) testo 605i thermohygrometers, instrument case
Order no. 0564 5550 01

App-controlled Smart Probe testo 552i

testo 552i App-controlled wireless vacuum probe, including batteries and calibration protocol
Order no. 0564 2552 01

**Everything at a glance.
In your hand.**

Fast measurement and easy operation via large graphic display and your smartphone – and yet extremely compact and rugged. The new digital manifolds from Testo.

The next generation of digital manifolds.

Thanks to Bluetooth® 5.0, the new digital manifolds with an extra-large display and rugged safety housing are also suitable for wireless measurement. You save valuable time and avoid stress in the installation, maintenance, and servicing of refrigeration systems and heat pumps. All important measurement programs are already stored in the manifold, as well as the right refrigerants for different systems.

With the testo Smart App, documentation is fast and uncomplicated on site. Thanks to wireless data transfer, you can even have both hands free, for a smooth job.

Bluetooth® 5.0 + App

testo 550s / testo 557s

The two new ones. First choice for every job.

The new testo 550s and testo 557s digital manifolds with 2- or 4-way valve block make measurements faster and easier than ever before. **Guided menus** guide you through the measurement and allow the automatic recording of all important plant parameters. **Bluetooth® probes** for temperature, pressure and humidity can be connected wirelessly to the instrument, and together with the **testo Smart App**, provide even more flexibility. And thanks to its proven quality and great durability, you can rely on **maximum precision.**

- **All results at a glance** with the large graphic display
- **Exceptionally compact and reliable** thanks to the easy-to-handle, rugged housing with IP 54 protection class
- **Simple, wireless measurement of vacuum and temperature** via automatic Bluetooth® connection
- **Even greater flexibility for your measurements and documentation** with the testo Smart App

testo 550i

Fully smart, fully wireless: The smallest manifold of all time.

The first **fully digital manifold** testo 550i enables you to control your daily servicing and maintenance work on refrigeration and air conditioning systems and heat pumps entirely via **testo Smart App** and smartphone or tablet. The smallest digital manifold on the market is equipped with a 2-way valve block, deals with measurements precisely, fast and conveniently, and thanks to the digital documentation, saves considerable time.

- **All activities, from measurement through to documentation,** using the Smart App on your Smartphone
- **The smallest digital manifold on the market**
- **Maximum reliability** thanks to the extremely rugged housing with IP54 protection class
- **Optionally expandable with testo Smart Probes** for wireless measurement of temperature, humidity and vacuum

testo 552i

Wireless and hoseless vacuum measurement.

No cables. No hose either: The new testo 552i App-controlled vacuum probe expands the testo Smart Probes portfolio with the option of measuring vacuum **wirelessly**, fast and **via just one service port.** And all this completely stress-free, as the probe **connects automatically** with the App and all digital manifolds.

- **Identify vacuums quickly and easily** through graphical representation in the App or on the digital manifold's display
- **Automatic Bluetooth® connection** with the testo Smart App and all digital manifolds
- **Compact, reliable and rugged** thanks to housing with IP 54 protection class
- **Easy installation** at any service port thanks to the integrated 45° angle
